

VP OF OPERATIONS

REF: 57317

POSITIVE career impact

- Successfully reduced an employer's arrears from £1.6 million to zero. Achieved by reviewing the entire process, from MPS planning through OTIF to the client, putting in new processes, and sharing accountability.
- Significantly increased OTIF from 48% to 100% in less than six months.
- Effectively managed the implementation of APQP and led through the quality function, earning recognition from the OEM as the foremost tier 1 supplier in this domain. Assisted in the transformative shift in mindset of both operational and quality functions. As a result, the company was positioned as a leader in Aerospace manufacturing.
- Full Manufacturing & P&L responsibility for manufacturing operations including MRO businesses.
- Extensive background in the aerospace and automotive industries.
- Experienced attendee and presenter at monthly board meetings and quarterly shareholder meetings.
